THAYER DOUBTS DESHA'S FIGURES FOR HAWAII VISIT

Estimate of \$11,000 Traveling Expenses of Congressmen Held Impossible

How Jack Desha, Delegate Kubio's private secretary, obtained a round-trip railway and steamship rate of \$11,000 for the congressional visiting party is a question to Territorial Secretary W. W. Thayer, and the latter is calling today for further particulars.

On investigation Thayer finds the rate is about \$20,000 better than could be obtained from this end of the line for the official junketing party. The territorial secretary "got busy" today in an effort to ascertain what kind of rates could be arranged if negotiations were undertaken with the transportation companies from Honolulu. He is astounded at the figures he received.

Briefly, he finds, he says, that the best rates he would be able to get would make the transportation expense, including only Pullman fares and meals en route, total approximately \$1,000. The entire appropriation for the territory's entertainment of the congressmen is only \$30,000.

The figures are as follows: Oceanic Steamship Company, special round-trip rate San Francisco to Honolulu, \$110 per passenger; round-trip, expedition railway rate, Chicago to San Francisco, \$62.50; Pullman, round-trip Chicago to San Francisco, \$28; meals en route on trains, \$32. These figures added together and then multiplied by 138, the number of persons in the party, produces the grand total of \$31,000.

Desha's cables to Thayer indicate that he has been able to obtain rates for the same round-trip journey for the entire party that will reach a total of only \$11,000 and this includes \$500 for a day's entertainment at the Palace Hotel at San Francisco.

The wide variance in the figures looks extremely doubtful to Secretary Thayer, and he is asking the delegate's secretary for more definite information.

One thing is certain. Unless Desha gets a far better rate from the transportation companies than Thayer has been able to obtain the territory will not have any money out of the \$30,000 fund for entertaining the official visitors after they arrive in Honolulu.

ANOTHER WILL OF J. K. SUMNER FILED IN COURT

Another "last will and testament" of the late John K. Sumner has been filed in circuit court, the latest by John Marcellino, who at one time was Sumner's attorney-in-fact. T. A. Mott-Smith filed a Sumner will a few weeks ago, and it is suspected that several others of various dates are scattered around among the many attorneys who served at different times as Sumner's attorneys-in-fact.

So far as known, Sumner possessed practically no property at the time of his death, late last year. The will filed by Mott-Smith was drawn January 30, 1906. That filed by Marcellino today was drawn and signed April 7, 1908.

Sumner, an eccentric character who was very wealthy many years ago, in the days of the monarchy, lost virtually everything in litigation. He continually was at war with his counsel, and in the last years of his life he was incessantly before the courts seeking changes in guardians or attorneys-in-fact.

In the will filed today, as in the first one, he bequeathed all the residue of his estate to one Lewis Keller and wife, residents of Tahiti. He sets forth that "because of the attitude of continued hostility on the part of the other relatives" he cut them off with a dollar each, giving the names and the dollar bequest to each one. In the second will, just filed, he named Carlos A. Long as executor of his estate. The documents was drawn in the law office of Clarence W. Ashford, now circuit judge, and who signed the will as a witness.

WHOLE FAMILIES FOUND VICTIMS OF TUBERCULOSIS

According to announcement this morning whole families have recently been registered by the tuberculosis bureau of the board of health as being victims of the grim, white plague. Their discovery is a result of the enlarged program of that division which provides for the examination of the families of open cases or of suspected cases while the nurses of the Palama Settlement nursing division, which forms a part of the bureau's system, have increased their work among school children.

The bureau registered several years ago the death from tuberculosis of a Portuguese man living in Kalihi. His grandson being picked up by the government dispensary as tuberculous several months ago and sent to the Leahi Home. It was then learned that the mother had also died from tuberculosis, while this week the nurse brought the two remaining grandsons to the bureau for the von Pirquet test and both reacted positively for the disease. This, a family of six with five known cases of consumption, is an example of several other recent instances discovered.

The nurses this week picked up the two Chinese-Hawaiian children of a mother dead some time ago from tuberculosis, both of whom reacted positively to the von Pirquet test, while as a reverse incident the visiting nurse of Kalihi discovered that the father of a boy who has been registered for several years had contracted the disease. The boy in this family is being sent to the Leahi Home this afternoon.

These and other instances are being compiled by the bureau for educational work and as illustrations of the communicability of the disease.

JAPANESE FLOWER EXHIBIT FOR SHOW

Japanese flower lovers in Honolulu will exhibit a Japanese floral attraction at the flower show in the Royal Hawaiian hotel, April 8. The arrangement of flowers in artistic design is part of a Japanese girl's education, and has been developed in Japan into one of the arts. Mrs. Arita, wife of the consul, will have charge of the exhibit and will be assisted by the other wives of the consular staff.

JUDGE ROBERTSON GOING TO CAPITAL

Chief Justice A. G. M. Robertson was booked to leave on the Wilhelmnia yesterday for San Francisco. He did not go by that boat, but it is thought by many that he intends going East shortly, presumably to Washington, D. C., on affairs in connection with the approaching expiration of his term as chief justice of the territorial supreme court. The term ends May 15.

"ONE SPOONFUL ENOUGH" SAYS DRUGGIST

The Hollister Drug Co. states that the simple mixture of buckthorn bark, glycerine, etc., known as Adler-Ka, is causing great surprise because just ONE SPOONFUL relieves constipation, sour or gassy stomach almost IMMEDIATELY. It is so thorough a bowel cleanser that it is used successfully in appendicitis. Adler-Ka acts on BOTH lower and upper bowel and the INSTANT effect is astonishing. It never grips and is perfectly safe to use.—advertisement.

STAR-BULLETIN GIVES YOU TODAY'S NEWS TODAY

LOCAL AND GENERAL

Honolulu Chapter, No. 1, R. A. M., special markmaster degree, 7:30 o'clock tonight.

The work on the Kamoaloa reservoir of Grove farm has been completed. The reservoir will hold 300,000, 000 gallons.

J. K. Brown today was appointed administrator of the estate of Annie E. Brown. The property consists of stocks and bonds valued at \$6000.

Petitions for charters of incorporation have been filed at the territorial treasurer's office for the Leong Joo Society and the Chinese Young People's Oratorical Association. Both are fraternal organizations among the Chinese of Honolulu.

The final accounts of Frederick Hons, administrator of the estate of D. H. Davies, have been approved by Circuit Judge Whitney. The administrator was ordered to bring suit forth with against Edwin L. Smith for \$200, alleged due on the purchase of furniture belonging to the estate.

The annual contest for the Damon rhetorical prizes is being held this afternoon at Punahou, the speeches beginning at 2:30 o'clock. Twelve of the Punahou students have entered. Mrs. Arthur C. Alexander, Miss A. J. Foster and Mr. O. P. Gump are the judges. The contest is held in Bishop hall.

J. I. Silva brought Kauai's first contribution to the advertisement of Hawaii into the promotion committee's rooms today. Six large framed views of Kauai were sent by the Kauai Chamber of Commerce to be displayed in Honolulu and also in the 'Hill, Bellevue and Stewart hotels of San Francisco.

W. K. Schultze, head luna of Makaweli plantation, was responsible for saving Kukulua bridge on the Kauai railroad last Sunday afternoon. A train load of nitrate of soda took fire from the engine sparks, and the burning soda, falling to the bridge, caused the timber to ignite. Schultze arrived in time to take charge of the gang and put the fire out.

Two years' imprisonment was the punishment meted out to Lorenzo Fillo by Circuit Judge Ashford. The Porto Rican was convicted Tuesday by a jury of the crime of procuring Vernon Cutting and Pio Eaton, who were found guilty of a statutory crime a week ago, were sentenced to two years and three and a half years' imprisonment respectively.

It is reported from Washington, D. C., that Attorney General Gregory has begun inquiries concerning the record and qualifications of Chief Justice A. G. M. Robertson of the territorial supreme court. Judge Robertson's term expires May 15. The attorney-general has given no indication as to what recommendation he will make to President Wilson.

John T. Scully and Henry B. Lewis, convicted of second-degree robbery, will be sentenced by Circuit Judge Ashford April 10. The advanced date was set by the court yesterday. Scully, George A. Bower and John McGrath, three of the four men recently indicted for first-degree robbery, are to enter pleas tomorrow. P. H. Boggs, the fourth man, already has pleaded not guilty.

The supreme court yesterday overruled defendant's exceptions to Circuit Judge Whitney's decision in the suit of Ripley & Davis, architects, against the Kapioian estate. The architects sued for \$1000 for plans drawn for a proposed third story to the Kapioian building, King and Aleka streets. Judge Whitney's decision was in the plaintiffs' favor and the higher tribunal upholds his ruling.

Morning on 'CHANGE

Even sugar at 1.42, the figure at which brokers clambered over each other a few weeks ago to buy stocks at any price, failed to move traders today and the market went on its imperturbable way, utterly unmoved. There were this morning just five transactions—and three of them were in industrials.

The rise from 4.89 failed to bring a single advance. There was some measure of trading in Oils but it was all at the prevailing price, \$1.12. Oahu Sugar, Ewa and H. C. & S. changed hands without change in price.

Confidence in the extinction of the Hilo Railroad from its difficulties was even less today, common selling down to 60 cents and 1901 bonds to 55. The latter represents a depreciation of 15.

Police & Hospital Reports

Victoriano de la Cruz, charged with stealing clothing belonging to Japanese and Chinese sailors, was found guilty by District Magistrate Monserrat. He was sentenced to three months in the municipal prison.

The National City Bank filed a suit in the supreme court against the city of New York, alleging the bank's stock held by shareholders has been improperly taxed.

Seven miners accused of murdering a party of nine guests and a clerk, four during the evening and three during the morning, were acquitted at Puna Point.

DANISH SCIENTIST TO STUDY MARINE LIFE OF ISLANDS

Dr. Mortensen Arrives on Sonoma to Get Specimens of Coral and Sponge

A study of marine life along the shores of the Hawaiian Islands and the gathering and classification of specimens, is the object of a tour of the islands to be made by Dr. T. Mortensen, assistant director of the Copenhagen, Denmark, national museum and zoological gardens, who was an arrival from Australia in the Oceanic liner Sonoma today.

Dr. Mortensen will devote about two months to his tour of the islands. The picturesque coloring of fish and other forms of marine life to be found in island waters was brought to the attention of Dr. Mortensen before starting out on his travels about two years ago. He said that he had heard much concerning the beautiful varieties of coral that cling to the rocks and reefs off the islands.

He hopes to secure as complete a collection of specimens as possible during the limited time at my command," said Dr. Mortensen this morning. "Since leaving Denmark I have visited Japan, China, the Philippines, New Zealand, South Africa and Australia. I am taking many cases of specimens gathered in these countries which will be prepared for exhibition at the Copenhagen museum.

Dr. Mortensen brought letters of introduction from European scientific men and explorers to Professor William A. Brigham of the Bishop Museum and Professor William A. Bryan of the College of Hawaii, who are expected to assist him in his research in these islands.

Kaneohe bay will afford Dr. Mortensen a wide field of study. He anticipates spending considerable time in studying the numerous forms of coral to be found there. He professed much interest in the recent visit of Professor Bryan to Midway, Laysan and other islands to the westward of Honolulu on the scientific expedition sent to the Pacific bird reservation by the University of Iowa. At that time Professor Bryan secured a valuable collection of all existing forms of marine growth.

In addition to fish and coral, Dr. Mortensen will give attention to sponges known to Hawaiian waters.

Dr. Mortensen carries a complete equipment of scientific instruments to assist him in conducting his investigation. Before the Sonoma departed for San Francisco today he arranged for the shipment of the bulk of his specimens to Denmark. The exhibit is contained in a large number of cases.

PUBLIC APPEAL FOR DEPENDENT FAMILY

The Associated Charities have made an appeal for John Kanapu, who now is supported by charity. Kanapu owns a piece of taro land which has been leased by a Chinese for \$45 a year, but which should bring a rental of \$150, according to Spencer Bowen of the charities. The lease expires in June and it is hoped by the family rehabilitating committee that the proper rental may be procured. The family could then be self-sustaining, Bowen says.

Everette Vachon, aged five years, and Eulalie Mercer, three years of age, broke through the ice on Baker's pond at Fitchburg, Massachusetts, and were drowned.
